INTRODUCTION ABOUT OUR COMPANY

OUR MISSION

- AIC is to deliver exceptional services in fabrication, construction, civil, and engineering works with the highest standards of quality, safety, and professionalism.
- We are committed to achieving excellence through innovative solutions, advanced technology, and a skilled workforce.
- Our goal is to build long-term relationships with clients by providing cost-effective, timely, and sustainable project outcomes.
- We strive to contribute to the growth of our clients, our employees, and the communities we serve.

OUR VISION

AIC is to become one of the leading and most trusted contracting companies in the region, recognized for our dedication to quality, reliability, and customer satisfaction.

We aspire to set new benchmarks in engineering excellence and construction innovation, creating value for every stakeholder through continuous improvement and sustainable development.

AIC aims to shape the future of infrastructure by combining experience, integrity, and modern engineering practices to build projects that last for generations.

ABOUT US

Established in 2014, Alliance Industrial Contracting. (AIC) is a leading contracting and engineering company specializing in Steel Fabrication, Civil Construction, Industrial Projects, Electrical Works, and Equipment Rental Solutions.

With a skilled team of engineers, supervisors, and technicians, we deliver projects with precision, safety, and efficiency – from design and fabrication to installation, testing, and maintenance.

AIC operates modern fabrication facilities and utilizes advanced technologies to meet the growing demands of the industrial and construction sectors, maintaining the highest standards of quality, safety, and environmental responsibility.

Our Services

- Steel Fabrication & Structural Works
- Civil & Building Construction
- Industrial Projects & Maintenance
- Electrical Installation & Wiring Works
- Equipment Rental & On-Site Support
-

We are committed to excellence, reliability, and long-term client partnerships, delivering sustainable solutions that strengthen infrastructure and drive industrial growth.

INDUSTRIAL EXPERIENCE

The base products of the company are produced for the following industries and projects.

- Sugar Mills
- Ghee & Oil Mills
- Paper & Board Mills
- LPG Filling Plants
- Textile Industries
- Paint Industries
- Polyester Fiber Plants
- Fertilizer Industries
- Oil & Gas Projects
- Cement Industries
- Power Generation Plants
- Ink Manufacturing Units
- Chemical & Petrochemical
- Steel Mills
- Food & Dairy Industries
- Beverages
- Telecommunication
- Packaging industries

SERVICES

ALLIANCE qualified engineers and experienced staff provide project services, replace, repair & maintenance of machinery & Equipment to the entire Satisfaction of our valued Customers according to their requirements.

ENGINEERING SERVICES

- Preparation of Design Briefs
- Over all System Design
- Preparation of Logic and Schematic Diagrams
- Equipment Sizing Calculation
- Equipment Installation Layout
- Preparation of Bill of Materials
- Evaluation of Suppliers Drawings
- Support in Testing and Commissioning at Site
- Support in Preparation of Manuals for Operators
- Support in Warranty Services

ACCELERATION ENGINEERING

- Tender Preparation
- System Design
- Obtaining of Design Approvals
- Coordination with Customers
- Preparation of Design Briefs
- Preparation of Design Modification
- Testing and Commissioning
- Maintenance Support
- Warranty Support
- Supervision, Maintenance & Training

EXPORTS

ALLIANCE is actively pursuing nearby regional markets to sustain its current growth, by leveraging relationship with various market leaders in different sectors of the industry combined with the strategic partnerships developed over the years with numerous reputable European companies, ALLIANCE aims to establish itself as a recognized engineering manufacturing organization in the Middle East, South Asia, Europe & America.

FACILITIES RANGE

PLATE ROLLING

CAPACITY - 1

- THICKNESS UP TO 50MM
- WIDTH UP TO 3200MM

CAPACITY - 2

- THICKNESS UP TO 30MM
- WIDTH UP TO 2500MM

CAPACITY - 3

- THICKNESS UP TO 15MM
- WIDTH UP TO 2500MM

DISH HEAD FLANGING MACHINE

CAPACITY

- THICKNESS UP TO 35 MM
- WIDTH UP TO 6000 MM

HYDRAULIC PRESSING

CAPACITY - 1

- CAPACITY UP TO 1500 TON
- SPAN SIZE 6000 MM
- BENDING THICKNESS UP TO 60MM

CAPACITY - 2

- CAPACITY UP TO 1000 TON
- SPAN SIZE 5000MM
- BENDING THICKNESS UP TO 40MM

SECTION BENDING & PIPE ROLLING

SECTION BENDING

- H-Beam 200 x 200
- I-Beam 200 x 100
- Angle 150 x 150

PIPE ROLLING

- Pipe Dia Upto 200MM
- Radius on Request

SHEARING / BENDING

• SHEARING MACHINE

Length - 6000MM
Thickness - 12MM

• BENDING MACHINE

Length - 6000MM
Thickness - 12MM

CUTTING SERVICES

• FLAME CUTTING

Thickness - 70MM

• LASER CUTTING

Thickness - 35MM

• IRON WORKER

Multi Purpose

• SECTION CUTTER

Thickness - 10MM

LATHE MACHINES

TURNING CAPACITY - 1

- DIA UP TO 1000MM
- LENGTH UP TO 12 METERS

TURNING CAPACITY - 2

- DIA UP TO 800MM
- LENGTH UP TO 10 METERS

DRILL MACHINES

RADIAL DRILL

- ARM SIZE 1500MM
- HOLE DIA UP TO 70 MM

RADIAL DRILL

- ARM SIZE 2000MM
- HOLE DIA UP TO 100 MM

SINGLE HEAD DRILL

- HOLE DIA UP TO 60 MM

MACHINING / EQUIPMENTS

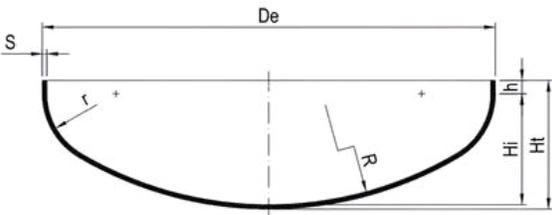

- SHAPER & PLAINER
- UNIVERSAL MILLING
- SURFACE GRINDER
- GRINDERS
- WELDING MACHINES
- GAS CUTTER
- INSPECTION TOOLS
- FORK LIFTER

MANUFACTURING RANGE FOR DISHENDS

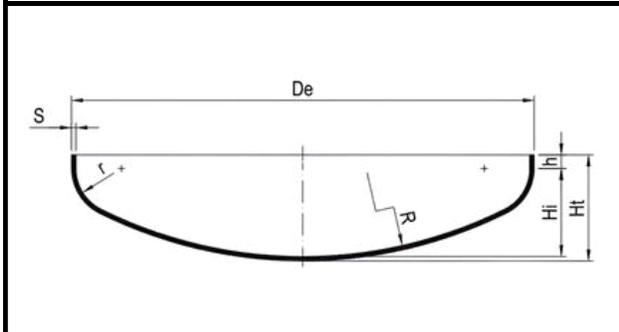

AIC, A pioneer in the private sector for over four decades, specializes in manufacturing all types of dish ends for boilers, high-pressure vessels, processing vessels, road transport bowzers, storage tanks, and heat exchangers. We produce dish ends as per international standards or customer specifications using both hot and cold forming systems. Our expertise covers materials such as MS, CS, SS, Nickel, Aluminum, and various steel alloys.

Di	=	Inner Diameter	Hi	=	Inner Height Flange
De	=	Outer Diameter	h	=	Straight Face
R	=	Inner Crown Radius	S	=	Nominal or Minimum Wall Thickness
r	=	Inner Knuckle Radius

WELDING

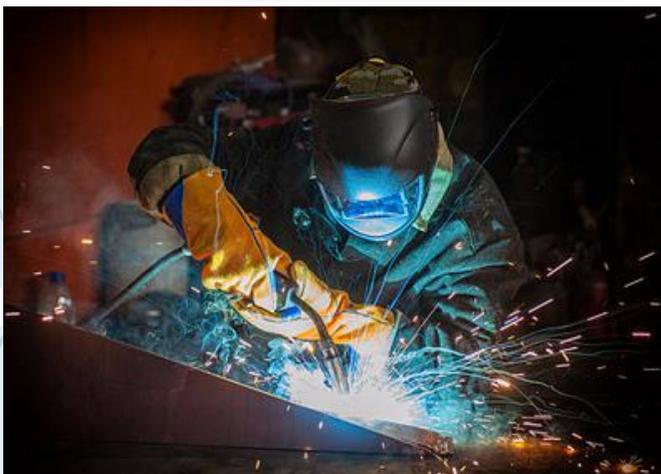

Our welding system have latest technology and performs astonishing feats of engineering products under the supervision of experienced welding engineers and experts.

Welding quality is always our top priority, High performance welding and state of the art technology an in-process International welding standards compliant quality system ensure that we always remain on top of things!

AIC. follow welding standards and type of the welding as given below:

- ASME IX
- API 1104

- SMAW – Shield Metal Arc
- SAW – Welding Submerged
- FCAW – Arc Welding Flux Core
- GMAW – Arc Welding Gas Metal
- GTAW – Tungsten Arc Welding

CONTRACTING DIVISION

ALLIANCE INDUSTRIAL CONTRACTING Division specialises in delivering high-quality industrial contracting solutions, ensuring seamless project execution from mobilisation to completion. With a dedicated team of engineers, technicians, and skilled workers, we provide end-to-end project support, adhering to international standards for efficiency, safety, and reliability.

CIVIL WORKS

Our civil contracting expertise covers:

- Construction of industrial roads, platforms, and infrastructure
- Excavation, foundation work, and concrete structures
- Building frameworks, architectural finishes, and industrial enclosures

ELECTRICAL WORKS

We specialize in electrical installations for industrial facilities, including:

- Power distribution, lighting, and control systems
- Substations, transformers, and switchgear installations
- Cable management and security fencing (PVC coated, GI, or metallic)

MECHANICAL WORKS

Our team delivers precise structural and mechanical installation services, covering:

- Steel frameworks, platforms, and industrial support structures
- Mechanical equipment setup for factories and industrial plants

TURNAROUND SERVICES

We provide critical shutdown and turnaround support, ensuring minimal downtime and maximum efficiency.

Our services include:

- Preventive maintenance and emergency shutdown support
- Supply of skilled technicians and equipment for rapid execution

MANPOWER SOURCING & SUPPORT

ALLIANCE INDUSTRIAL CONTRACTING provides reliable and efficient Manpower Sourcing & Technical Support Services to meet the growing demands of the construction, industrial, and engineering sectors. We supply qualified, experienced, and well-trained manpower tailored to each client's project requirements, ensuring smooth site operations and improved productivity.

WHY CHOOSE US

- ✓ End-to-End Project Execution – From mobilization to completion, we ensure smooth, efficient, and timely operations.
- ✓ Industry Compliance – We follow strict global standards for safety, quality, and performance.
- ✓ Skilled Workforce – Our team includes experienced engineers, supervisors, and certified craftsmen.
- ✓ Proven Expertise – Strong track record across industrial, civil, mechanical, and electrical projects.
- ✓ Reliable Manpower Solutions – Providing qualified technical personnel for short-term and long-term project needs.

SERVICES

- CIVIL EARTH WORKS SITE PREPARATION.
- STEEL STRUCTURAL ERECTION.
- BUILDINGS & STRUCTURES CONSTRUCTION.
- PIPING & PIPELINE INSTALLATION
- MECHANICAL SYSTEMS INSTALLATION.
- TANKS & VESSELS ERRECTION
- FIRE PROTECTION SYSTEM
- PUMPING SYSTEM
- INSTRUMENTATION CONTROL AUTO SYSTEM
- HVAC & CHILLER SYSTEM
- FIRE ALARM SYSTEM
- PRE-COMMISSIONING & COMMISSIONING
- BUILDING SERVICES MEP WORKS
- REMOVAL OF DEBRIS
- REMOVAL OF SAND
- SUPPLY OF CLAY SAND
- SUPPLY OF SAND
- WASTE MATERIAL REMOVAL

CIVIL & CONSTRUCTION DIVISION

Our Civil Division provides a full spectrum of construction services, delivered with the highest standards of quality, safety, and efficiency. We support clients across commercial, residential, industrial.

OUR CIVIL SERVICES INCLUDE:

1. CONCRETE WORKS

- Complete structural and infrastructure construction.
- Foundations, slabs, columns, beams, and retaining structures.
- Internal roads, pavements, and underground utilities.
- Execution in compliance with international codes and best practices.

2. FINISHING WORKS

- Comprehensive interior and exterior finishing solutions.
- Fit-out works tailored to client requirements.
- Cladding, façades, and architectural finishes.
- Landscaping works that enhance functionality and aesthetics.

TODAY, THE CIVIL DIVISION IS NOT AN ADDITIONAL SERVICE; IT IS A FULLY INDEPENDENT UNIT, POSITIONED AS A KEY CONTRIBUTOR TO THE SUCCESSFUL COMPLETION OF PROJECTS, AND A TESTAMENT TO **SAND** COMMITMENT TO QUALITY AND INNOVATION.

3. SPECIALIZED CIVIL WORKS FOR CRITICAL FACILITIES

- Dedicated expertise in civil works for data centers and DCP plants, where precision, reliability, and compliance with technical standards are essential.
- Integration with MEP and specialized systems to ensure seamless project delivery.

4. ADDITIONAL CAPABILITIES

- Value engineering and design support for cost optimization.
- Project management and quality assurance at every stage.
- Safety-focused execution in line with international HSE standards.
- Skilled workforce and modern equipment to deliver projects on time and within budget.

PAINTING/COATING DIVISION

We specialize in providing high-quality industrial and commercial painting and powder coating services designed to protect, enhance, and extend the life of metal and structural surfaces.

Our team ensures precise surface preparation, durable finishing, and uniform coating using advanced techniques and top-grade materials. Whether it's structural steel, fabricated components, machinery, or building interiors/exterior, we deliver smooth, long-lasting, and corrosion-resistant finishes that meet international standards.

We offer a complete range of services including:

- Industrial and Structural Painting
- Powder Coating for Metal and Steel Components
- Epoxy and Protective Coatings
- Surface Preparation and Sandblasting
- Customized Color and Finish Options

With a strong focus on quality, durability, and client satisfaction, ALLIANCE INDUSTRIAL CONTRACTING ensures every project is completed with precision and excellence – maintaining aesthetic appeal and long-term protection in every coat

MOTOR REWINDING DIVISION

AIC, offers expert motor rewinding and repair services for all types of electric motors, ensuring maximum efficiency, reliability, and performance. Our skilled technicians specialize in AC and DC motor rewinding, using high-quality materials and precision techniques to restore motors to their original specifications or better.

We handle a wide range of applications including:

- Industrial Motors
- Pump Motors
- Compressor Motors
- Generator Alternators
- Electric Tools and Equipment Motors

Our process includes thorough inspection, complete dismantling, cleaning, rewinding, varnishing, and final testing – ensuring every motor runs smoothly, efficiently, and safely.

ALLIANCE INDUSTRIAL CONTRACTING, we focus on reducing downtime, extending motor life, and saving energy costs, making us a trusted partner for maintenance and industrial support services.

RENTAL EQUIPMENT DIVISION

BULLDOZER ROLLER

JCB

DOUBLE DRUM ROLLERS

SHOVEL TRUCK

LOWBED TRAILER

GRADER TRUCK

BOBCAT TRUCK

MOBILE CRANE

TRADING DIVISION

Trading is a reliable and customer-focused industrial supply company committed to delivering high-quality materials for construction, mechanical, petrochemical, and industrial projects. With strong sourcing capabilities and trusted partnerships with regional and international manufacturers, we ensure consistent supply, competitive pricing, and timely delivery to meet the needs of our clients.

STRUCTURAL MATERIALS

Timber, steel, and aluminum hollow sections, angles. Universal beams, channels, flat bars, square and round bars, steel rebars.

SHEETS & PLATES

Aluminum, stainless steel (SS) sheets, and mild steel (MS) plates.

GRATINGS

Plain and serrated, available in black and galvanized finishes.

INDUSTRIAL PIPES

Electric resistance welded (ERW) and seamless (SMLS) pipes in CS, SS, and alloy metals, available in all sizes.

INDUSTRIAL PIPE FITTINGS

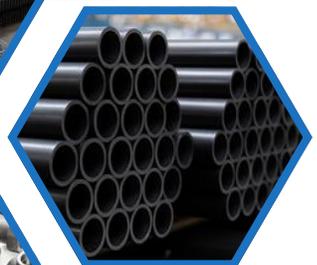

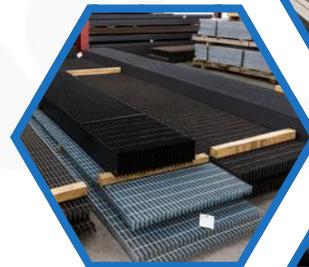

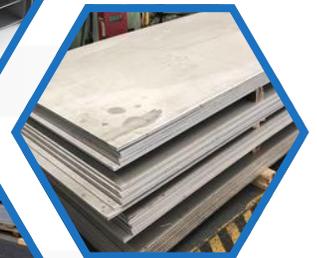

Carbon steel (CS), stainless steel (SS), forged carbon steel (FCS), forged stainless steel (FSS), and alloy metals in all sizes.

FLANGES

Slip-on, weld-neck, threaded, blind, and socket weld flanges in various classes.

FASTENERS

Bolts, nuts, washers, and other fasteners in various types and sizes.
